

User Story: Filling Exam Form Online

Context: As a university student registered for upcoming exams, I want to be able to easily and accurately fill out my exam forms online, so I can ensure my enrollment in the exams without manual paperwork and potential errors.

Acceptance criteria:

- ❖ I can access the online exam registration form using my student ID and password.
- ❖ The online form pre-fills with my basic information (name, ID, program) from university records.
- ❖ I can review and update any personal information displayed.
- ❖ The form clearly lists all required exam choices, special needs, accommodations, and additional fields to be filled.
- ❖ I can upload required documents securely, such as proof of eligibility or disability certificates.
- ❖ The system validates all uploaded documents for format and size compliance.
- ❖ I can review and edit all submitted information before final submission.

Success:

- ❖ Upon successful submission, I receive a confirmation email with a summary of my exam choices and details.
- ❖ The system automatically updates my exam registration status in the university records.
- ❖ I can access and manage my submitted exam forms and download confirmation documents at any time.

Failure:

- ❖ In case of any server side error the system should re-display the form and the fields that were previously been filled should be as such.
- ❖ Error messages should be clear and helpful in case of missing information or invalid submissions.
