

Title: Notify Students for Due Payment

As a hall staff, I want to notify the students if the payment is due. So that I can efficiently manage the student payments up to date.

Acceptance Criteria:

1. As a student, I want to check my notification bar if I forget about my payment.
2. As a staff, I will check the payment list if the payment process is still pending I will notify them with a notification.
3. Notification of hall payments, exam payments, and other development payments will be done by notifications.

Success:

- Upon successful notification sent, a “Notification sent” pop-up will be shown.
- Upon successful notification, a notification will be sent to the student’s notification bar and have a definite title about the notification and a notification body.

Failure:

- If there are issues during these operations, an error message should guide corrective actions.
- If any problem arises while sending a notification, a “Notification has not been sent” pop-up will be shown.
- If technical issues occur during the allocation process, the system should provide an error message.
